[i] Census 2011

[ii] Not available. To maintain confidentiality due to the small numbers involved.

[iii] Data for the 5 year period from 2008/09-2012/13, Source – Scottish Neighbourhood Statistics - <http://www.sns.gov.uk>

[iv] The "Training" destination shown in the table above refers to destinations where there is no employer or no formal education establishment (For example a government training scheme). As these opportunities occur less frequently away from the large centres of population the uptake in Moray is small.

[v] https://isds.scotland.scot.nhs.uk/Health-Topics/General-Practice/Publications/2014-09-30/QOF_Scot_201314_Practice_prevalencev2.xls

[vi] Source – Scottish Neighbourhood Statistics - <http://www.sns.gov.uk>. Data highlighted in red italics represents averaged values from one or more datazones.

[vii] "-" represents where no anti-social behaviour has been recorded.

[viii] Where there are more than one Datazones/Output areas in each of the six areas the figures are averaged. Averaged figures are highlighted in Red *Italics*. SIMD rankings for areas with multiple zones are purely averaged values and as such do not show the diversity between zones which in some cases range from 1 to 5.

[ix] The SIMD divides Scotland into 6,505 small areas, called datazones, each containing around 350 households. The Index provides a relative ranking for each datazone. In quintiles, the rankings are 1 (most deprived) to 5 (least deprived).
